Summary

Experienced Full Stack Developer with 2.5 years of experience with a passion for programming and diverse expertise in Frontend and Backend development technologies like .Net, Python, HTML, CSS, Angular, Typescript, Javascript along with proficiency in complete ELK stack i.e. Elasticsearch, Logstash and Kibana, MongoDB, NoSQL. Also experienced in using New Relic for troubleshooting and monitoring deployed applications. Adept in building scalable APIs and user friendly UI complying with WCAG standards.

Experience

Software Engineer

GEP Worldwide

Jun 2021 - Nov 2023 (2 years 6 months)

Worked as a Full-Stack Developer in multiple technologies such as **Dot Net** for backend development of REST APIs, **Angular, HTML, CSS, Low-code** for frontend development, **Elasticsearch (ELK Stack)** for data storage along with tools like **GitHub** for version control, **JIRA** for project management, **Confluence** for project documentation and guidance, **Azure CI/CD** for deployment of applications, along with **Unit Testing**. Also developed utilities in **Python/ C#** to speed up daily work. Guided up to **50+ application teams worldwide** in multiple time zones, integrating their application with **Elasticsearch** for new clients up till production. Day-to-day activities involved helping teams in data updating, data deletion and **troubleshooting, debugging** and **analyzing issues** related to data ingestion and data retrieval in Elasticsearch. **Collaborated with 20+ clients and UX team** and delivered solutions on time.

Projects:

Enterprise Search Engine: Worked on Global Search project in the organization which was responsible for retrieval of data from Elasticsearch for all the configured projects, with parallel processing.

Index template management API: RESTful Web API built in ASP.NET for deploying and updating Index templates in Elasticsearch.

Advanced Filter and Quick Filters: Utility on project workbench for quickly filtering data

Skills

Elasticsearch • Logstash • Kibana • C# • ASP.NET • .NET Core • HTML • CSS • TypeScript • Git • Angular • Python • SDLC • JIRA • CI/CD • Problem Solving • Analytical Skills • Debugging • Troubleshooting • Unit Testing • Performance Tuning • jQuery • SQL

Education

Xavier Institute of Engineering

Bachelor's Degree, Computer Engineering, 6.45 CGPA

2018 - 2021

Thakur Polytechnic

Diploma of Education, Information Technology, 77.82%

2015 – 2018
